

EMCOMMWEST 2010 will be held April 30 - May 2, 2010 at the Grand Sierra Resort in Reno, Nevada. This annual event is a forum for Amateurs to discuss the latest emergency communication techniques, learn what our served agencies are up to, hear about success stories, and pitfalls from speakers who come from around the US.

If you would like to speak at this event, please send an e-mail to [speakers@emcommwest.org](mailto:speakers@emcommwest.org). You will be sent a speakers application and memorandum of understanding which outlines what is to be supplied by the event organizer and what is expected of speakers. The application allows for a short description of your proposed talk, an opportunity for you to categorize it if you wish and the ability to let the organizers know how much time you might like as well as your desired speaking time. Your application will be reviewed by the EMCOMMWEST Speaker's Committee. Successful candidates will be notified during the early portion or the first quarter of the new year.

The event's website is located at <http://www.emcommwest.org>. There isn't much information there yet, but it will grow as information becomes available. Again, please send requests to [speakers@emcommwest.org](mailto:speakers@emcommwest.org).

EMCOMMWEST is recognized by the ARRL as an Operating Speciality Convention. EMCOMMWEST® is a Registered Service Mark of EMCOMMWEST, Inc.
